- Data management system MOBILE-PLAN with interface to Hastus scheduling system
- Statistical analysis tool MOBILEstatistics
- Report generation software MOBILEreports
- Data distribution tool MOBILEic
- System monitoring tool MOBILEguard
- Full matrix LED passenger information display at stops PIDmatrix

Brisbane is the capital and most populous city in the Australian state of Queensland and the third most populous city in Australia. Brisbane's metropolitan area has a population of over 2 million and constitutes the core of the South East Queensland agglomeration, encompassing more than 3 million people. While the metropolitan area is governed by several municipalities, a large proportion of central Brisbane is governed by the Brisbane City Council which is Australia's largest Local Government Area by population.
